Qualitative

Qualitative research involves fieldwork.

The researcher physically goes to the people, setting, site, or institution to observe or record behavior in its natural setting.

Qualitative research is descriptive in that the researcher is interested in process, meaning,

Read Book

Qualitative

Research is based on distinct methodological traditions of inquiry that explore a social or human problem.

The researcher builds a complex, holistic picture, analyzes words, reports detailed views of informants, and conducts the study in a natural setting.
