Research Base

One of the most  
common ways to  
describe a single  
variable is with a

frequency  
distribution. Depending  
on the particular  
variable, all of the data  
values may be  
represented, or you may  
group the values into  
categories first (e.g., with  
age, price, or

# Where To Download The

temperature variables, it would usually not be sensible to determine the frequencies for each value.
