~~Social Decisions~~ If you look around carefully, you will see that scarcity is a fact of life. Scarcity means that human wants for goods, services and resources exceed what is available.

~~1.1 What Is Economics, and Why Is It Important ...~~

CHAPTER 1: WHAT IS ECONOMICS?5 As shown in Figure 1.1, scarcity affects almost every decision we make. This is where the study of economics comes in. Economics is the study of how people try to satisfy what appears to be seemingly unlimited and competing wants through the careful use of relatively scarce resources.

If you're like most people, you constantly face decisions because you don't have enough time and money to do everything. At most basic level, economics is the study of how people make choices when they face a limited supply of resources. In this chapter you will begin your study of economics by investigating two basic economic ideas: scarcity and trade-offs.

Economics is that way of understanding behavior that starts from the assumption that people have objectives and tend to choose the correct way to achieve them. The second half of the assumption, that people tend to find the correct way to achieve their objectives, is called rationality. This term is somewhat deceptive, since it suggests that the way in which people find the correct way to achieve their objectives is by rational analysis--analyzing evidence, using formal logic to deduce ...
